

April 2022, Miami, Florida, US.

Starting May 1st, 2022, Identidad Technologies will manage all International A2P SMS business for Cable and Wireless Panama S.A.

We are proud to announce that starting May 1st, 2022, Identidad Technologies has been appointed exclusive gateway for all International A2P SMS traffic for Cable and Wireless Panama S.A.

At Identidad Technologies we are excited to add Panama to the list of countries we exclusively manage for Liberty Latin America, "As a company, we are honored and highly appreciate the trust granted to us by Liberty Latin America. We strive to maintain Liberty Latin America's outstanding quality and will be placing special attention to service, which we plan to constantly improve through our own technology.", stated Andrés Sánchez, Identidad Technologies CEO, earlier this week.

If you are a customer of Cable and Wireless Panamá or if you need to connect with them, take into account that you must get in touch with us.

Country	Entity	MCCMNC
Panamá	Cable & wireless Panamá, S.A	701401

About Identidad Technologies

Identidad Technologies is a constantly evolving technological platform that utilizes its own in-house developments to create state-of-the-art products/services for communications needs across all industries on the wholesale, enterprise, and retail scale. With 20+ years' experience, the company commenced as a voice provider in 2001 before successfully branching out into other fields: SMS, Network Solutions, Omnichannel communications, IoT and Managed Services.
